

# PLANTERINGAR 2013

---

Årets planteringar i Arboretum Lassas Hagar,  
Svartlöga

Stiftelsen  
2013-12-28

This is the third year every single plantation is documented in four ways. First as a GPS-waypoint plotted in the Swedish "Friluftskartan Prime" expressed as Lat/Lon hddd°mm.mmm' (WGS 84). Second with one or several photos taken at the moment of plantation. Third as this list with plants listed in alphabetic order. Forth in an Excel-document with more specified data especially for wild collected taxa. That document is divided in Quarters, called KV (kvarter in Swedish) due to the arboretum's different areas.

**Planteringar i Arboretum Lassas Hagar 2013** (bearbetad 2013-12-28; + = död)

Namn/Härkomst/Origin Kvarter	Planteringsdag	Position	Altitud
