

PLANTERINGAR 2011

Årets nyplanteringar i Arboretum Lassas
Hagar, Svartlöga

Stiftelsen
2013-12-24

This is the first year every single plantation is documented in four ways. First as a GPS-waypoint plotted in the Swedish "Friluftskartan Prime" expressed as Lat/Lon hddd°mm.mmm' (WGS 84). Second with one or several photos taken at the moment of plantation. Third as this plantlist. Forth in an Excel-document with more specified data especially for wild collected taxa. That document is divided in Quarters, called KV (kvarter in Swedish) due to the arboretum's different areas.

Planteringar i Arboretum Lassas Hagar 2011 (bearbetad 2013-12-17; + =död)

Namn /Härkomst Kvarter	Planteringsdag	Position	Altitud	
Acer japonicum wc Mt Nikko Jpn KV-21	05-JUN-11 16:59:38	N59 34.171 E19 03.108	1 m	
Acer platanoides wild ex Åsa Filén KV-34.1	22-APR-11 15:45:24	N59 34.166 E19 03.113	3 m
