

PLANTERINGAR 2012

Årets nyplanteringar i Arboretum Lassas Hagar,
Svartlöga

Stiftelsen
2013-12-26

This is the second year every single plantation is documented in four ways. First as a GPS-waypoint plotted in the Swedish "Friluftskartan Prime" expressed as Lat/Lon hddd°mm.mmm' (WGS 84). Second with one or several photos taken at the moment of plantation. Third as this plantlist. Forth in an Excel-document with more specified data especially for wild collected taxa. That document is divided in Quarters, called KV (kvarter in Swedish) due to the arboretum's different areas.

Planteringar i Arboretum Lassas Hagar 2012 (bearbetad 2013-12-24; + =död)
